

# Project Details & Proposed Typical Section

## The proposed FM 1378 project includes:

- Widening the existing 2-lane roadway to a 4-lane roadway.
- A curbed median to separate the eastbound and westbound lanes.
- Drainage improvements within the project limits.
- Intersection improvements with turn lanes.
- The proposed typical right-of-way width would vary from 130-feet to 140-feet.
