

Environmental Review

Traffic Noise

- The Traffic Noise Analysis was performed in accordance with TxDOT's (and FHWA approved) Guidelines for Analysis and Abatement of Roadway Traffic Noise. Based on the analysis, noise barriers were determined reasonable and feasible at four locations. The barriers will be further refined and voted on during future noise wall workshops.

Cultural Resources

- There were 34 historic-age properties identified within the project area. All of these properties were recommended not eligible to be listed on the National Register of Historic Places.

Waters of the U.S./Wetlands

- Five intermittent streams, one perennial stream and one pond were identified as potential impacts to waters of the U.S. within the project area. Impacts would be authorized by the U.S. Army Corps of Engineers under a Section 404 Nationwide Permit 14. A Preconstruction Notification to the Army Corps of Engineers would be required for impacts to the pond and one intermittent tributary.
